

Internship Program

January, 2019

INTERNSHIP PROGRAM 2019

About MAXAM

At MAXAM we work to offer our clients throughout the world a wide range of products and full technical support to respond to their most specific needs.

Since our founding in 1872 by Alfred Nobel, MAXAM has grown by leaps and bounds. We are a global technology company, specializing in the design, development, manufacture and application of energy material to blasting solutions for mining, quarries and infrastructures, defense, nitro chemical and hunting cartridges, with 6.500 employees worldwide, in 45 countries.

A lot has changed since Alfred Nobel started the business but some things haven't changed: our dedication to our people to achieve excellence in what we do.

What will you do

We are looking for Chemical Process Engineering students (Grade or Masters) who have growth mindset to join our MAXAM's internship program at Technical Direction Area (DITEC) where you will have the opportunity to develop projects connected with real challenges in MAXAM. Creativity and innovation are our strong value, make them yours also and that will allow to develop your talent, join us!
